7) COMPUTER CODE OF CONDUCT

Somerville Rise Primary School has connections to the internet and use of e-mail from class rooms and the Library. It is important that our students are made aware of the rules for use of these facilities and that parents understand the types of use that students will be involved in.

Our use of internet will we limited to three main forms of access:

- Teacher demonstrated and directed, which involves adult supervision and direct monitoring of sites accessed.
- Student access through the Department of Education's approved site, Educache, which will
 only contain sites deemed appropriate for students
- Use of E-mail to other school's for research purposes

- I will take great care of computer resources at Somerville Rise Primary School and will not bring food or drinks near them.
- I will not give out personal information such as my address, telephone number, parents' work address or telephone number or the name or the location of my school without my parents' permission over the internet or when using e-mail.
- I will tell my parents or teacher straight away if I come across any information that makes me feel uncomfortable.
- I will never send a person my picture or anything else without first checking with my parents.
- I will not respond to messages which are mean or in any way make me feel uncomfortable.
 I have read and discussed the Student Computer Code of conduct with my child and believe that my child will be able to follow these rules and use computers, the Internet, and E-mail responsibly.

At the beginning of each year each class teacher will be given a list of students whose parents have agreed that they allow their children to use the Internet and E-mail. The class teacher will revise the rules and issue students with their own "My Computer Code of Conduct".

Acceptable Use Agreement for Internet and digital technologies

Somerville Rise Primary School believes the teaching of cybersafe and responsible online behaviour is essential in the lives of students and is best taught in partnership between home and school.

21st century students spend increasing amounts of time online, learning and collaborating. To be safe online and to gain the greatest benefit from the opportunities provided through an online environment, students need to do the right thing by themselves and others online, particularly when no one is watching.

Safe and responsible behaviour is explicitly taught at our school and parents/carers are requested to reinforce this behaviour at home.

Some online activities are illegal and as such will be reported to police.

Part A - School support for the safe and responsible use of digital technologies

Somerville Rise Primary School uses the internet and digital technologies as teaching and learning tools. We see the internet and digital technologies as valuable resources, but acknowledge they must be used responsibly.

Your child has been asked to agree to use the internet and mobile technologies responsibly at school. Parents/carers should be aware that the nature of the internet is such that full protection from inappropriate content can never be guaranteed.

At Somerville Rise Primary School we:

- have policies in place that outline the values of the school and expected behaviours when students use digital technologies, including mobile phones, iPods and the internet;
- provide a filtered internet service;
- provide access to the Department of Education and Early Childhood Development's search engine Connect;
- provide supervision and direction in online activities and when using digital technologies for learning;
- support students in developing digital literacy skills;
- have a cybersafety program at the school which is reinforced across the school;
- use mobile technologies for educational purposes (e.g. podcasts or photos from excursions);
- provide support to parents/carers to understand this agreement (e.g. language support);
- provide support to parents/carers through information evenings and through the document attached to this agreement for parent to keep at home.

If you have any concerns about this agreement or ideas for making the agreement better contact Mark Dewhurst. For further Support with online issues students can call Kids Helpline on 1800 55 1800. Parents/carers call Parentline 132289 or visit http://www.cybersmart.gov.au/report.aspx

Please read the Acceptable Use Agreement (attached) with your child, sign and return the agreement to your child's class teacher. Use of digital technologies will be restricted until the agreement is received by the class teacher.

Acceptable Use Agreement for Internet and digital technologies

Part B - Student Agreement

When I use digital technology I agree to:

- be a safe, responsible and ethical user whenever and wherever I use it
- support others by being respectful in how I communicate with them and never write or participate in online bullying (this includes forwarding messages and supporting others in harmful, inappropriate or hurtful online behaviour)
- talk to a teacher if I feel uncomfortable or unsafe online or see others participating in unsafe, inappropriate or hurtful online behaviour
- seek to understand the terms and conditions of websites and online communities and be aware that content I upload or post is my digital footprint
- protect my privacy rights and those of other students by not giving out personal details including full names, telephone numbers, addresses and images
- use the internet for educational purposes and use the equipment properly
- use social networking sites for educational purposes and only as directed by teachers
- abide by copyright procedures when using content on websites (ask permission to use images, text, audio and video and cite references where necessary)
- think critically about other users' intellectual property and how I use content posted on the internet.
- not interfere with network security, the data of another user or attempt to log into the network with a user name or password of another student
- not reveal my password to anyone except the system administrator or the teacher
- not bring or download unauthorised programs, including games, to the school or run them on school computers When I use my mobile phone, iPod or other mobile device I agree:
- mobile phones should be switched off and kept out of sight during classroom lessons. Parents are reminded that in
 cases of emergency, the school office remains a vital and appropriate point of contact and can ensure your child is
 reached quickly and assisted in any appropriate way;
- while on school premises, students should use soundless features such as text messaging, answering services, call diversion and vibration alert;
- mobile phones should not be used in any manner or place that is disruptive to the normal routine of the school;
- students should protect their phone numbers by only giving them to friends and keeping a note of who they have given
 them to. This can help protect the student's number from falling into the wrong hands and guard against the receipt of
 insulting, threatening or unpleasant voice, text and picture messages; and
- be respectful in the photos I take or video I capture and never use these as a tool for bullying.

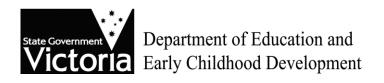

This Acceptable Use Agreement also applies during school excursions, camps and extra-curricula activities. I acknowledge and agree to follow these rules. I understand that my access to the internet and mobile technology at school will be renegotiated if I do not act responsibly.

Acceptable Use Agreement for internet and digital technologies

I have read the Acceptable Use Agreement carefully and understand the significance of the conditions and agree to abide by these conditions. I understand that any breach of these conditions will result in internet and mobile technology access privileges being suspended or revoked.
