

Junior School Wheels Day

Thursday 21st September, 2017

All Junior School students are invited to bring their bike, rollerblades, scooters or skateboards to school on the above date. They may also bring along any toys that have wheels (eg remote control cars). Bikes will need to be left in bike racks, so please bring a chain and lock.

Students will be enjoying using their "WHEELS" as part of the Physical Science topic Forces (push and pull).

**All students are to wear a helmet (correctly fitted).
We recommend bringing along knee
and elbow pads for added protection.
NO HELMET - NO RIDE**

Thank you

The Junior School Teachers
