

Outdoor Language Experience

Tuesday, 05 June 2018

Dear Parents,

Learning outside the classroom supports the development of healthy and active lifestyles by offering children opportunities for physical activity, freedom and movement, and promoting a sense of well-being. Learning outside the classroom gives children contact with the natural world and offers them experiences that are unique to outdoors, such as direct contact with the weather and the seasons. Outdoor learning also supports children's language development and nurtures their creativity, as well as providing rich opportunities for their developing imagination, inventiveness and resourcefulness. We believe that if a child cannot talk about a topic then they cannot write about it.

Therefore please make sure on Monday that your child brings a warm coat and their gum boots (if they have them) to school so that they can participate in a language experience. If you do not have gum boot an old pair of shoes and spare socks will be ok.

Many Thanks

The Junior School Teachers
