PERCEPTUAL MOTOR PROGRAM (PMP)

Dear Parents,

The PMP program helps to develop many skills including language, motor, visual, auditory, memory and social. Jane Hart will be taking our Foundation (Prep) students for PMP sessions on Thursday afternoons from 2:40 – 3:30. These lessons will take place 22nd February, 1st, 8th, 15th and 22nd March.

During PMP we will run five stations in which students participate in a range of activities including throwing, catching, bouncing, balancing, climbing etc. For PMP to achieve its intended learning benefits the children need constant support and supervision at each activity. Therefore we are seeking your support during each session. We will need five parent helpers per session. **In fact without your assistance we will not be able to run it!** However, as with all parent helpers now, you must have a current Working with Children's card registered at the office to be able to assist. If you are able to help please complete the attached form and return to Miss Hart by Wednesday 21st February.

During PMP students will participate in the activities barefoot. Therefore it is important on the day they have PMP that they come to school in shoes they are able to take off and put back on themselves. We recommend girls don't wear tights on these days.

If you have any questions about PMP please contact Jane Hart or your child's teacher.

Thank you for your support,
Junior School Teachers
